

TB-01 Test Bench

Product Overview

Versatile The TDK RF Solutions TB-01 Test Bench has been designed to meet the functional requirements of today's EMC test environment while providing the modularity necessary to handle future expansions. It is composed of a top mounted rack, worktables, a modular-linking element, and any customer specified equipment.

Efficient Design

Fiber optic and communication interfaces are accessible from the side panels through concealed cable ducts. Main test bench power and RF signal bulkheads are accessed from the distribution panels on the test rack.

Ergonomic Layout

The modular design of the test bench allows for optimal placement of test instrumentation to provide a comfortable, ergonomically correct workstation for test engineers.

The TDK RF Solutions TB-01 Test Bench system is designed to optimize the use of space to provide test engineers with an efficient and comfortable workstation.

Features

- Ergonomic design
- Concealed cable ducts
- 19" standard rack mount available
- Safety tested by TUV
- System can be customized to customer test requirements

Applications

- Main Control Room test console
- EUT monitoring test bench
- Technical workstation for diagnostic testing of equipment maintenance, calibration, or repair

Standard Accessories Included

- Front cover strips
- Support side rails
- Base cover
- Panel mounts
- Depth members
- Integrated tabletop
- Ergonomic work chair

TB-01 Test Bench

Mechanical Specifications

Dimensions:	Custom
Weight:	N/A
Construction:	Steel and die cast aluminum
Finish:	Light gray tabletop; gray die cast aluminum

Ordering Information

Product:	Test Bench
Model Number:	TB-01
Warranty:	1 year
